

CONFORMAL COATING SINGLE INSPECTION BOOTH

Model No. IB100

Conformal coating solutions made easy

Want to improve your conformal coating inspection process? Use an inspection booth.

The **IB100 single inspection booth** is designed specifically for practical conformal coating inspection and finishing of printed circuit boards (PCBs) for one operator.

The inspection booth is an ergonomically designed system that optimises the UV light intensity and darkness for the best inspection performance for the operator while protecting them from any solvents used.

Standard Features

- One x Twin UVA lighting tube fitted in the ceiling enclosure that is cleverly shielded from the operators eyes to create the best inspection environment
- Single spigot inlet for connection to suitable extraction to protect operators from fume build up
- Two ESD Points for left and right-handed operator use with an earth point at the rear to insure circuit board safety
- 1 metre wide work space for single operator

When it comes to inspecting the quality of your coating process there really is no solution like the IB100 inspection booth.

Facilities

- 150mm extraction connection
- 13A Single phase electricity supply
- 450 cfm extraction required (0.7m/s face velocity requirements)
