

# Technical Overview

## INLINE CONFORMAL COATING DIP SYSTEMS

*Conformal coating solutions made easy*

## Control your process with our precision medium and large volume inline dip coating systems

**SCH provide custom inline dip systems** for medium and large volume application of conformal coating to printed circuit boards.

We provide custom, automated platforms based upon standard dip coating technology, with fully integrated conveyor, control and curing modules that are completely flexible.

The systems provide a total conformal coating inline dipping solution to suit customer needs.

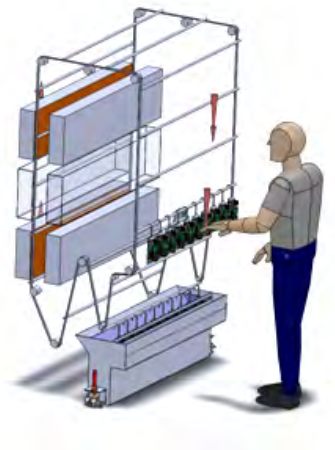

### Options available include :

- Complete process control (Immersion, dwell and withdrawal speed)
- Temperature and viscosity control
- Custom PCB handling and delivery systems
- Inline Infrared, convection and UV cure modules
- Vertical or horizontal dip coating systems
- Inline through pass or return systems
- SMEMA controls
- ATEX control systems
- Automatic dosing and top up systems
- PLC and / or PC control
- Fire suppression systems
- Fully CE certified

Our high volume dip systems can be designed to your needs.

### Contact us now

Find out how we can help you with your conformal coating dip process and save you time and money now.
