Technical Overview

## **CONFORMAL COATING** SERVICES

Conformal coating solutions made easy

## Are you choosing the right conformal coating service for you?

Our coating services provide global subcontract solutions for liquid conformal coatings, fluoropolymer nano-coatings and Parylene across North America, Europe and Asia.

## Services

- Global coating services in North America, Europe and Asia
- All conformal coating materials (conformal coatings, Parylene, ultra thin, potting & encapsulating products and RFI/EMI shielding lacquers)
- All methods of conformal coating application including selective robots spraying & dipping
- Low, medium or high volume capacity dependent on customer requirements
- Cleaning & contamination testing of printed circuit boards and parts
- Infrared (IR), convection & ultraviolet (UV) curing available
- 100% Inspection of completed product
- ISO9001 and ISO14001 Qualified
- All processes to IPC A 610 Class III or higher
- Dedicated services within customer facilities as required
- Qualified with automotive, aerospace and military original equipment manufacturers (OEMs) and subcontract manufacturers globally

We are the number one conformal coating solution provider within the electronics market that offers a complete range of options for you. We provide cost-effective, high quality solutions without compromise in the timescales you require.
