

UV Inspection lamp

Overview

The conformal coating UV inspection lamp is a 300cm² illuminated rectangular glass lens magnifier suitable for inspecting conformal coatings.

The inspection lamp has a magnification of 1.75X and dimmable UV fluorescent bulb that provides the perfect inspection environment for operators and inspectors for the conformal coating process.

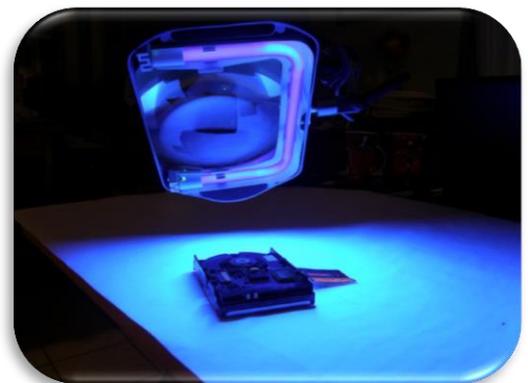

Standard features

- 300cm² illuminated magnifier
- Magnification 1.75X (3 diopters)
- Optic is rectangular glass lens
- Dimmable 25%-100% 2500 LUX
- UV fluorescent bulb
- Table clamp included
- ESD safe
- Available in blue or shadow white.

Options

- Increased magnification 2X (4 diopters)
- Protective cover (available in blue and shadow white)
- Weight base, table stand 17.5 kg (beige or black)

Facilities: UK (240V) and European (220V) main supply
